Describe the present and original (if known) physical appearance

Only 17 covered bridges remain in the counties of Adams, Cumberland and Perry. The earliest of these is the Sauk's Bridge (38-01-01) of Adams County, this is also the only Town truss bridge of the group.

No overall regional characteristics are evident with a variety of siding, flooring and portals present. Because this is only a small remnant of the original number of bridges (except Perry County) it is impossible to ascertain any patterns in style or design.

The Rice bridge of Perry County displays a unique combination of Queen-posts and Burr arch. This is the only bridge of this type in Pa., however others may have existed but are now destroyed.
