**Describe the present and original (if known) physical appearance**

Only 17 covered bridges remain in the counties of Adams, Cumberland and Perry. The earliest of these is the Sauk's Bridge (38-01-01) of Adams County, this is also the only Town truss bridge of the group.

No overall regional characteristics are evident with a variety of siding, flooring and portals present. Because this is only a small remnant of the original number of bridges (except Perry County) it is impossible to ascertain any patterns in style or design.

The Rice bridge of Perry County displays a unique combination of Queen-posts and Burr arch. This is the only bridge of this type in Pa., however others may have existed but are now destroyed.
