Pavement History
What’s new in Pavement History?

V003.004

December 17, 2018

This document summarizes modifications and new functionality that have been incorporated into ISLE.

- Similar information bars are now collapsed into a single line to make reading them easier.
- Videolog button now uses the new Videolog link.
- Date information for StreetView images is now shown when using StreetView from the Google map.
- Fixed a problem where selecting the segment bar would clear the segment selection on the map.
